

A Joint Seminar brought to you by SIgN / ETC

Dr Elliot Parks
Hawaii Biotech Inc.

Co-Host: Dr John Connolly & Prof Alex Matter
Singapore Immunology Network & Experimental Therapeutics Centre,
A*STAR
Date: Wednesday, 8th February 2012
Time: 11.00am – 12.00pm
Venue: SIgN Seminar Room, Immunos Building Level 4, Biopolis

Efforts to develop a tetravalent prophylactic vaccine against dengue virus

Dr. Parks will review the status of efforts to develop a tetravalent prophylactic vaccine against dengue virus infection. He will detail the various dengue vaccine candidates currently in clinic trials, their composition and other characteristics. The progress and state of each of clinical trials will be reviewed as will the public information available on the clinical results from these trials. Furthermore, the implications of these results to the development of a next generation dengue vaccine will be discussed.
